

Changed Risk Landscape

Briefing for law firms

CPD accredited

The management of risk is a vital consideration for law firms in the current economic environment. Our 'Changed Risk Landscape' briefing will provide an overview of the biggest and most worrying risks facing law firms in England and Wales as a result of the financial crisis and downturn, and the latest update on the insurance market for risk transfer products for the profession, including professional indemnity insurance.

During this informative briefing, our panel will address topics including:

- The key findings and analysis of our 2009 law firm risk management survey published in conjunction with Legal Business magazine
- How the professional indemnity insurance marketplace is changing for law firms in the current economic environment
- Additional risks and how to manage them – changes in regulation, dangers of consolidation, financing of your firm, employment practices, management of the firm, etc.
- How litigation funding can help you and your clients

Marsh aims to tailor events specifically to the requirements of its clients. If there are any other topics or issues that you would like to see covered in this briefing, please contact Carole Porter on:
